Cherwell College Oxford specialises in helping 15-19 year old young adults achieve their highest pre-university qualifications through bespoke, comprehensive, and innovative academic programmes, which will enable entry to the Russell Group Universities and the leading universities of the world.

We focus on a student as an individual: we **listen** to students and **learn** about their interests & ambitions. We are co-educational, non-denominational, day and boarding school in Oxford.

We help students to understand their options, decide on their direction and provide support to achieve their goals. We design a course of study that best reflects all these aspects. **Students are supported to help them develop as an independent young adult** who will be fully prepared for undergraduate studies.

Our aim is for students to progress to a leading university and onward to a career where they will be able to work independently for the benefit of themselves and those around them.

Our main policy documents including our Terms & Conditions (which form the contract between the parents/the student and the institution when the offer of a place is accepted), Data Protection, Privacy Notices, Safeguarding & Child Protection, Curriculum and Complaints procedure can be found on our website under the Policies page:
